Kämmer Actuators Series 2 ***Pneumatic Actuators***

Experience In Motion

Actuators Series 2

Description

Standard linear actuators for control valves:

- Standard actuator made from stainless steel
- Air supply up to 6 bar
- Multi-spring design
- Reversible
- Top handwheel possible

Kämmer series 2 actuators types P2, P3, P4 and P5 are powerful and compact. By using stainless steel material the actuators have far reaching resistance to corrosion even without a protective coating. Accessories such as positioners, limit switches or solenoid valves etc. can be fitted according to NAMUR. Compact versions with enclosed accessories are also available.

Definition of action

Air-to-open: without air supply the actuator stem extends

Air-to-close: without air supply the actuator stem retracts

Air-to-Open version

Air-to-Close version

Actuators Serie 2

Technical Data

Actuator size		P2	P3	P4	P5
Diaphragm area	cm ²	120	300	600	1200
Thrust max.	daN	400	900	2000	3500
Stroke	mm	10 - 25	10 - 40	10 - 60	20 - 60
Actuator action		air-to-open / air-to-close			
Supply pressure	bar	Depends on spring set (max. 6 bar)			
Air connection	(Standard)	1/4" NPT			
Allowable ambient temp.		-40 to +80 °C (-40 to +176 °F)			
Spring range		See appropriate spare parts list			
Mounting position		Optional (vertical preferred)			
Operating medium	(supply)	Instrument air* (dry and oil-free)			
Actuator cases		Stainless steel			
Diaphragm		Eco / Polyamide			
Springs		Spring steel epoxy resin coated			
Actuator stem		Stainless steel			
Screws, nuts		Stainless steel			
Other parts		Stainless steel / Aluminium / Plastic			

*Other operating mediums on request.

Actuators Series 2

Actuator thrust in relationship to spring set and supply pressure
